

KLOVE is an important service using local FM translators. This station helped me a great deal in the past when I was going through some difficult times, and its message of hope and peace made a huge difference for me. This service fills a great need in the community and replacing it by LPFM broadcasters with other programming would be a tremendous loss. I have been a supporter of this station for a number of years and would be devastated to lose it -- even though I no longer live in an area directly served by it. In these dark difficult days a message of hope and calm is a wonderful service to the community, calming drivers, uplifting broken spirits. Please don't take this away from us!
